Holding Company

COMPANY PROFILE

ABOUT **EDITION PLUS**

Edition Plus Holding FZE is a UAE-based multi-division company specializing in fit-out, construction, maintenance, and specialized construction services.

Built on a foundation of engineering expertise and operational excellence, Edition Plus was established to redefine how construction projects are delivered, shifting from fragmented execution to a fully integrated, client-focused model.

The company brings together multiple capabilities under one structure, supported by complementary activities including materials supply, logistics support, workforce solutions, and investment operations, allowing greater control and efficiency across all projects.

Rather than operating as a traditional contractor, Edition Plus positions itself as a premium execution partner, delivering projects with precision, accountability, and full control.

Backed by a strong infrastructure network and supported by advanced systems, the company is equipped with:

- 100+ skilled workforce (manpower)
- Experienced management team
- Structured operational and execution systems

This enables Edition Plus to handle both residential and commercial projects with consistent quality and efficiency.

**At its core, Edition Plus is driven by a simple principle:
To simplify complexity, eliminate risk, and deliver projects with complete confidence.**

OUR VISION

To become the most trusted and preferred execution partner in the UAE for fit-out, construction, and specialized projects, recognized for delivering with precision, transparency, and complete reliability.

Edition Plus aims to redefine industry standards by transforming construction from a complex, stressful process into a seamless and controlled experience for every client.

MISSION

To deliver fully integrated construction solutions through a single point of responsibility, covering design, approvals, materials, execution, and final handover.

We are committed to:

- Simplifying the construction journey for our clients
- Eliminating delays, risks, and uncertainty
- Maintaining the highest standards of quality and compliance
- Providing clear communication and full transparency at every stage
- Delivering projects that combine functionality, durability, and refined design

Through expertise, structured processes, and strong operational control, we ensure every project is executed with confidence, from vision to completion.

OUR VALUE PROPOSITION

At Edition Plus, we deliver more than construction—we deliver a fully controlled, stress-free project experience.

One Point of Responsibility

From design to handover, everything is managed by one team—ensuring clarity, speed, and full accountability.

Seamless Execution

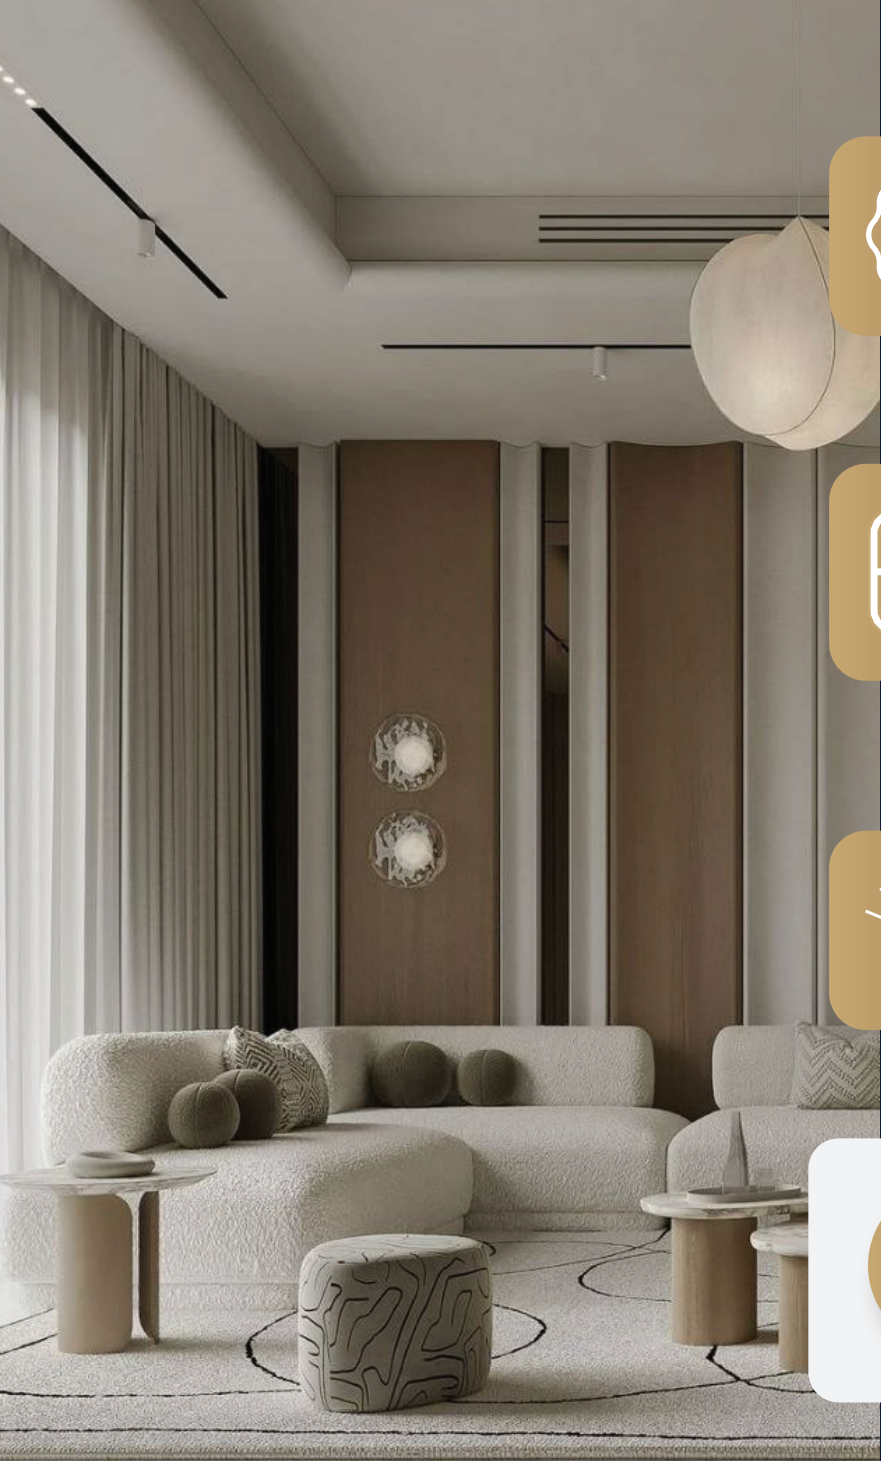

We handle approvals, coordination, and execution supported by internal systems and operational capabilities that reduce delays and eliminate complexity.

Direct Client Engagement

No consultants. No middlemen. Just faster decisions, better communication, and complete transparency.

Engineering-Driven Quality

Every project is built on strong technical expertise, high-quality materials, and strict execution standards.

Integrated Model

All services are managed internally, Supported by internal capabilities in trading, logistics, and manpower, ensuring full operational control and faster execution.

Real Value Delivery

We don't just build spaces we enhance functionality, increase property value, and deliver long-term results.

One team | Full responsibility
Complete confidence.

OUR **BUSINESS STRUCTURE**

Edition Plus Holding FZE operates as a fully integrated multi-division company, bringing together a range of specialized construction and support services under one unified structure.

This model allows the company to move beyond traditional, fragmented project execution and deliver a seamless, end-to-end experience with full control over every stage.

The business is structured around the following core divisions:

1- Fit-out & Interior Solutions

Comprehensive interior execution for residential and commercial spaces, combining design precision with technical performance to deliver functional and refined environments.

2- Villa Extensions & Renovations

Specialized services focused on expanding and upgrading existing villas, including Majlis additions, structural modifications, and full property transformations.

3- Maintenance Services

Ongoing property maintenance solutions designed to ensure long-term performance, reliability, and asset value preservation.

4- General Contracting

Execution of large-scale construction projects, including roads and buildings, supported by strong engineering capabilities and operational expertise.

5- Building Materials Trading

Supply of high-quality construction materials through a trusted and efficient supply chain, ensuring consistency and durability across all projects.

6- Specialized Construction Services

Advanced and niche construction solutions tailored to specific project requirements, delivered with technical precision and industry compliance.

7- General Trading

Supporting project execution through sourcing and supply flexibility across various materials and operational needs.

8- Logistics & Transportation Services

Efficient coordination and movement of materials and resources to ensure timely project delivery.

9- Shipping Services

Handling and managing shipment operations to support procurement and supply chain efficiency.

10- Investment Activities

Strategic involvement in project-related investments and business ventures.

11- On-Demand Workforce Supply

Providing flexible manpower solutions to support project scalability and operational demands.

12- Roads & Infrastructure

Execution of road works and infrastructure projects supported by organized operational systems, engineering standards, and coordinated project delivery focused on durability, efficiency, and long-term performance.

WHY CHOOSE **EDITION PLUS**

One Point of Responsibility

One team handling everything, from concept to handover.

Zero Approval Hassle

We manage all approvals and compliance requirements.

Faster Project Deliver

Streamlined processes with no delays or miscommunication.

Direct Communication

No middlemen. Clear, fast, and transparent interaction.

Proven Engineering Expertis

Strong technical foundation backed by real execution experience.

Fully Integrated Execution

Design, materials, logistics, workforce, and construction, all managed within one system.

Premium Quality Standards

High-grade materials and strict quality control on every project.

Built for Long-Term Value

Durable, functional spaces that enhance your property investment.

OUR PROCESS

From Vision to Handover

At Edition Plus, we follow a structured, transparent process that ensures every project is delivered with clarity, control, and confidence.

Initial Consultation

We begin by understanding your vision, requirements, budget, and timeline—ensuring full alignment from the start.

Design & Planning

Our team develops the design concept, technical drawings, and project plan tailored to your needs and space.

Approvals & Compliance

We handle all authority approvals and regulatory requirements—eliminating delays and ensuring full compliance.

Progress Tracking & Communication

You stay informed at every stage through structured updates and transparent communication.

Execution & Construction

Our teams manage all on-site activities with strict quality control, clear timelines, and full coordination

Final Handover

We deliver a fully completed, ready-to-use project—meeting agreed specifications, quality standards, and timelines.

A clear process | Full control | Zero uncertainty.

QUALITY & COMPLIANCE

At Edition Plus, quality and compliance are not optional—they are built into every stage of our process.

01

Strict Quality Standards

Every project is executed using high-grade materials, skilled teams, and controlled workflows to ensure consistent, long-lasting results.

02

Full Regulatory Compliance

We manage all approvals and ensure every project meets local authority requirements, including municipality and safety regulations.

03

Controlled Execution

From planning to delivery, every phase is monitored to maintain accuracy, consistency, and performance

04

No Compromise Approach

We do not cut corners. Every detail is delivered to meet defined specifications and professional standards.

Built to meet standards. Delivered to exceed expectations.

Built with today's technology.
Ready for tomorrow's
demands.

TECHNOLOGY & INNOVATION

At Edition Plus, technology is integrated into every project to enhance efficiency, control, and long-term performance.

Smart Solutions

We incorporate modern systems such as smart lighting, climate control, and security to create intelligent, future-ready spaces.

Efficient Project Management

Using structured systems and digital tools, we ensure accurate planning, smooth coordination, and controlled execution.

Performance-Driven Design

Our approach combines functionality with innovation—delivering spaces that are not only visually refined, but also optimized for daily use.

Future-Ready Execution

We build with long-term adaptability in mind, ensuring every project remains relevant, efficient, and durable over time.

Edition⁺

Holding Company

LET'S BUILD WITH CONFIDENCE

At Edition Plus, we believe every successful project starts with the right partner. With a fully integrated approach, proven expertise, and a commitment to quality and transparency, we deliver projects that are clear, controlled, and built to last. Whether you are planning a villa extension, renovation, or a commercial fit-out, our team is ready to guide you from concept to completion seamlessly and confidently.
